Dear Residents,

Just a quick heads-up: ant activity has been reported near the pool area, and you may notice sand being pushed up between some of the pavers. While we can't confirm the type of ants, there's a chance they could be fire ants, so please use caution around the area, especially with children.

The pool will remain open, and **treatment is scheduled for tomorrow** by **Arrest A Pest & Trapping Services**, a local company based right here in the community.

A cone will be placed to mark the affected area.

We'll continue to monitor the situation and follow up if anything changes.
